02 / TYPE

BARLOW CONDENSED

ExtraBold headlines. Sentence-case body copy in the website body font; Arial is the portable stationery fallback.

03 / LOGO

Use the approved full-colour lockup on ivory or white. Keep its proportions and leave clear space around it. Do not stretch, recolour, add effects or place it over busy artwork.

04 / VOICE

Clear, useful and direct. Start with the business need, explain the work, then show evidence. Use real projects and precise descriptions. Avoid inflated claims and invented performance numbers.

Core message: Intelligence. Put to work.
